Link Transit shall make every effort to include the following practices, consistent with the Burlington-Graham Metropolitan Planning Organization adopted Public Involvement Plan (available <https://bgmpo.org/Projects-Plans/MPO-Plans/Public-Involvement-Plan>); not withholding the public participation plan adopted by the Burlington City Council:

1. Coordination with individuals, institutions, or organizations and implementing community-based public involvement strategies to reach out to members in the affected minority and/or low-income communities
2. Provision of opportunities for public participation through means other than written communication, such as personal interviews or use of audio or video recording devices to capture oral comments
3. Utilization of locations, facilities and meeting times that are convenient and accessible to low-income and minority communities
4. Utilization of different meeting sizes or formats, or varying the type and number of news media used to announce public participation opportunities
5. Implementation of USDOT's policy guidance regarding Link Transit's responsibilities to LEP persons

The following public outreach activities occurred during the last Title VI Program period:

- Reduced Link Transit service by one trip due to novel Coronavirus pandemic – March 2020
- Implemented shuttle services for COVID-19 testing April 2020
- Launching Link Transit fare free service – June 2021
- Restoring full Link Transit service – July 2021
- Implement evening service – to be determined – approved by City Council August 2021

- Added Saturday service – October 2021
- Implemented shuttle service to Burlington Sock Puppets – June 2022
- Implement evening service – to be determined – approved by City Council August 2021

Each time Link Transit implemented changes to its operations, public outreach activities were designed and accomplished to ensure the public was aware of such changes. For fare and route adjustments, changes to service announcements were made 30 days prior to the adjustment to encourage feedback from passengers and a draft of the route schedule was posted to the website. A survey or communication channel was established for passengers to provide their feedback and then those comments were analyzed and taken into consideration. The public was made aware of changes through various channels including public notice on website, notice in newspaper (as necessary), social media announcements, email announcements, text messages, signage at bus stops, and flyers on buses. Final adjustments were then prepared and, if necessary and required, presented to the Link Transit Public Transit Advisory Commission for information and feedback and ultimately the Burlington City Council to have a vote and establish the date the adjustments to become effective.

We encourage the public to attend any Link Transit Public Transit Advisory Commission and Burlington City Council meeting. A two (2) to three (3) week period of time was provided for passengers to see the final adjustments, ask questions, and understand the adjustments prior to it becoming effective. Announcements of final adjustments were made through similar channels as the initial announcement to encourage passengers to review the adjustments.

See [APPENDIX C](#) for a summary list of dates over the past three (3) years that Link Transit has adjusted routes or fares.

X. Public Hearing Process for Service and Fare Changes

Link Transit will advertise in accordance with the Link Transit Policy regarding public participation to conduct any public hearing when considering proposed fare and major service changes. Public hearings are a key element of the decision-making process used by the Burlington City Council to assess the potential impact proposals that may have on Link Transit riders and residents of Burlington, Gibsonville and Alamance County.

Policy

Public Hearings will be scheduled by the Burlington City Council for fare and major service change proposals except as otherwise provided below.

Definitions

A major service or fare change is any change or series of changes that directly affect:

1. 25 percent or more reduction of transit route revenue hours of Link Transit system-wide service.
2. 50 percent or more reduction of transit route revenue hours of a single Link Transit route computed on an annual basis.
3. The implementation of a new transit route.
4. 25 percent or more on the implementation of a passenger fare adjustment on an annual basis.

Procedure

Proposed major service changes and fare and fare media pricing shall be evaluated for compliance with the Federal Transit Administration's (FTA) Office of Civil Rights guidance regarding potential discriminatory impacts on minority and low-income populations. The evaluation will include proposed actions the Link Transit may apply to minimize, mitigate, or offset the adverse effects the changes could have on these populations, as described in FTA Circular 4702.1B, "Title VI and Title VI-Dependent Guidelines."

Prior to the institution of a fare change or major service change, a notice of intent to hold a public hearing will be published following the Burlington City Council adopted public participation plan. The notice will also be published in newspapers oriented to specific groups or neighborhoods that may be affected.

The notice will be published at least 30 days prior to the hearing.

The notice will contain descriptions of the changes and the time and place of the hearing.

Link Transit shall ensure that all programs, services, activities, and benefits are implemented without discrimination. Any person who believes that he or she, individually, or as a member of any specific class or persons, has been subjected to discrimination on the basis of race, color, national origin, or other protected class interests, may file a signed written complaint with Link Transit or FTA at the addresses listed below:

- Link Transit Manager
City of Burlington on behalf of Link Transit
234 East Summit Avenue
Burlington, NC 27215
Email: info@linktransit.org
Fax: 336.222.5004
- Federal Transit Administration Office of Civil Rights
Title VI Program Coordinator
East Building, 5th Floor – TCR
1200 New Jersey Avenue, SE
Washington, DC 20590

If you are unable or incapable of providing a written statement and desire Link Transit or the FTA to investigate alleged discrimination, a verbal complaint of discrimination may be made. You may call Link Transit at 336.222.7351. The complainant will be interviewed by the Link Transit Manager to receive complaints. If necessary, the official will assist the complainant in converting verbal complaints in writing. All Complaints must be signed by the complainant or his/her representative.

Exceptions

1. Changes in fares and fare media pricing are subject to public hearing requirements with the exception of the following:
 - Reduced fare for less than 180 days
 - Free-fare promotions
2. Service changes are subject to public hearing requirements with the exception of the following:

- Standard seasonal variations.
- Changes instituted in response to an emergency situation in effect for 90 days or less.
- Experimental service changes instituted for 180 days or less.

Nothing in this section precludes the Burlington City Council from setting a public hearing on any matter associated with fares and service that it chooses.

Furthermore, all changes contemplated by Link Transit will be reviewed by the Link Transit Public Transit Advisory Commission prior to submission to the Burlington City Council.

XI. Plan Monitoring and Evaluation

Evaluation of the success of any involvement efforts must be result-oriented. It is never safe to assume that just because people don't come to an event that they are uninterested in the project. The goal is to educate and include the public at all levels of planning, not just to invite them. Evaluation, then, must be two-fold. The first part is to track what efforts are being made, and the results of those efforts, and the second part is to make regular assessments of the success of a technique within a given program, and to strategize for future successes.

Tracking Efforts and Success

In order to track our public participation efforts, it is necessary that the individuals involved record their efforts.

1. Link Transit will keep records of outreach activities. See a summary in [APPENDIX C](#).
2. Copies should be kept of any print ads, and transcripts of any public service announcements.
3. Notes should be made after meetings regarding the overall tone of the meetings and any ideas or observations made regarding the process.

Efforts of Monitoring and Evaluation of the LEP Plan

1. Provide day-to-day administration of Link Transit's LEP Plan, ensuring compliance and correct implementation.
2. Seek feedback from LEP communities, including customers and community-based organizations, about the effectiveness of Link Transit's LEP Plan.
3. Translate Link Transit's Title VI complaint procedure and form in multiple languages.
4. Establish a Link Transit procedure that requires all written translation requests be routed through and managed by the Title VI coordinator to ensure consistency.
5. Create one-stop LEP information center for Link Transit riders.
6. Conduct an evaluation every three (3) years of Link Transit's LEP Plan to gauge its effectiveness and determine if updates are needed. Link Transit staff will lead the evaluation with the help of staff familiar with Title VI language access requirements and the LEP Plan. The evaluation may include the following:
 - Determine the number of LEP individuals in Link Transit's service area.
 - Assess whether existing language assistance services are meeting the needs of LEP persons.
 - Assess whether staff members understand Link Transit's LEP Plan, how to carry

them out, and whether language assistance resources and arrangements for those resources are still current and accessible.

XI. Monitoring Subrecipients

Link Transit does not have any sub-recipients. So, no oversight is needed in this area.

APPENDIX A : TITLE VI COMPLAINT PROCEDURES

Title VI Information, Limited English Proficient (LEP) information and Complaint Process

(Printed materials, website, and other mediums upon request)

The City of Burlington on behalf of Link Transit grants all citizens equal access to all its transportation services. It is further the intent of Link Transit that all citizens are aware of their rights to such access. This is designed to serve as an educational tool for citizens so that they may understand one of the civil rights laws that protect their benefits of Link Transit's programs and services, specifically, as it relates to Title VI of the Civil Rights Act of 1964.

What is Title VI? Title VI is a section of the Civil Rights Act of 1964 requiring that "No person in the United States shall on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." Note that Title VI does not address gender discrimination. It only covers race, color and national origin. Other Civil Rights laws prohibit gender discrimination.

What is LEP? As part of Title VI requirements, Link Transit has developed a Limited English Proficiency (LEP) Plan to help identify reasonable steps to provide language assistance for LEP persons seeking meaningful access to Link Transit services as required by the Federal Transit Administration "Improving Access to Services for Persons with Limited English Proficiency." A Limited English Proficiency person is one who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English.

Link Transit's Complaint and Investigation Procedures These procedures cover all complaints filed under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990, for alleged discrimination in any program or activity administered by Link Transit. These procedures do not deny the right of the complainant to file formal complaints with other State or Federal agencies or to seek private counsel for complaints alleging discrimination. Every effort will be made to obtain early resolution of complaints at the lowest level possible. The option of informal mediation meeting(s) between the affected parties and Link Transit may be utilized for resolution. Any individual, group of individuals or entity that believes they have been subjected to discrimination prohibited under Title VI and related statutes may file a complaint.

The following measures will be taken to resolve Title VI complaints:

Public Outreach:

During the FFY 20-22 period, there was no face-to-face outreach due primarily to the novel coronavirus pandemic. The months of this period which occurred before the pandemic shutdown had no face- to-face outreach.

Throughout FFY 20-22, Link Transit depended on the Link Transit website, social media outlets, direct emails and communication with passengers at the temporary transit hub and onboard buses.

1. Public outreach for all service adjustments throughout FFY 20-22 were made a month in advance when planning was possible and included direct email to customers on e-mailing lists for effected routes, Link Transit website, social media and passenger apps.
2. Occasionally driver shortages did not allow for 30 days' notice that a certain trip or trips on one or more routes would be cancelled for a particular period. Nonetheless outreach to notify the public included direct email to customers on e-mailing lists for effected routes, Link Transit website, social media and passenger app announcements
3. Announcements for inclement weather were announced via the Link Transit website, passenger apps, social media and emails when the weather effected service delivery.
4. Periodic announcements on the federal mask mandate for transit passengers and staff were made throughout the pandemic via social media and email. The mandate was posted on buses and at all Link Transit facilities and the Link Transit website.
5. Outreach was made ahead of the for free rides via email, rider alerts, flyers, brochures, website and social media.
6. Holiday service levels were announced via the Link Transit website, passenger apps, social media and emails. A calendar of holiday service levels is posted on Link Transit fixed route vehicles, on the website and in public areas of Link Transit facilities.
7. Customer surveys took place during in the latter part of FFY 2022 in partnership with the Piedmont Triad bus operators. The survey in May/June 2022 were offered electronically and in paper format. All surveys were announced through social media, direct email and the Link Transit website. The May/June surveys included a paper option made available to passengers on bus and at passenger facilities.
8. Changes in passenger apps were announced via electronic means and printed signs on Link Transit vehicles and facilities.

APPENDIX D: LIMITED ENGLISH PROFICIENCY (LEP) PLAN

Introduction

The Link Transit system, operated by the City of Burlington, understands that transportation is critically important to the daily lives of our community members. The purpose of this limited English proficiency plan is to comply with Link Transit's responsibilities to limited English proficient (LEP) persons consistent with Title VI of the Civil Rights Act of 1964 and its implementing regulations. Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq., and its implementing regulations, provides that no person shall be subjected to discrimination on the basis of race, color or national origin under any program or activity that receives federal financial assistance.

In cooperation with the Cities of Burlington, Town of Gibsonville, Alamance County and Alamance Community College, Link Transit provides services to connect residents and visitors to quality-of-life opportunities. Link Transit is a direct recipient of Sections 5307 and 5339 funds to urbanized areas and fully implements the provisions of federal and state guidance to meet the requirements to provide public transit services. Link Transit may also apply for discretionary funds via North Carolina Department of Transportation (NCDOT) processes for Sections 5310 and 5339 funds.

Purpose

The purpose of this policy plan is to ensure compliance with Title VI of the Civil Rights Act of 1964. "Improving Access to Services for Persons with Limited English Proficiency," reprinted at 65 FR 50121 (August 16, 2000), directs each Federal agency that is subject to the requirements of Title VI to publish guidance for its respective recipients clarifying that obligation. Different treatment based upon a person's inability to speak, read, write, or understand English may be a type of national origin discrimination.

Applicability

All federal agencies and all programs and operations of entities that receive funding from the federal government, including state agencies, local agencies such as the City of Burlington on behalf of Link Transit, private and non-profit entities, and sub recipients.

Plan Summary

Link Transit has developed this Limited English Proficiency Plan (LEP) to help identify reasonable steps to provide language assistance for LEP persons seeking meaningful access to Link Transit services as required by the Federal Transit Administration. A Limited English Proficiency person is one who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English.

This plan details procedures on how to identify a person who may need language assistance, the ways in which assistance may be provided, training staff, how to notify LEP persons that assistance is available, and information for future plan updates.

Definitions

Limited English Proficiency (LEP) individual – Any prospective, potential, or actual recipient of services from Link Transit who cannot speak, read, write or understand the English language at a level that permits them to interact effectively with Link Transit staff.

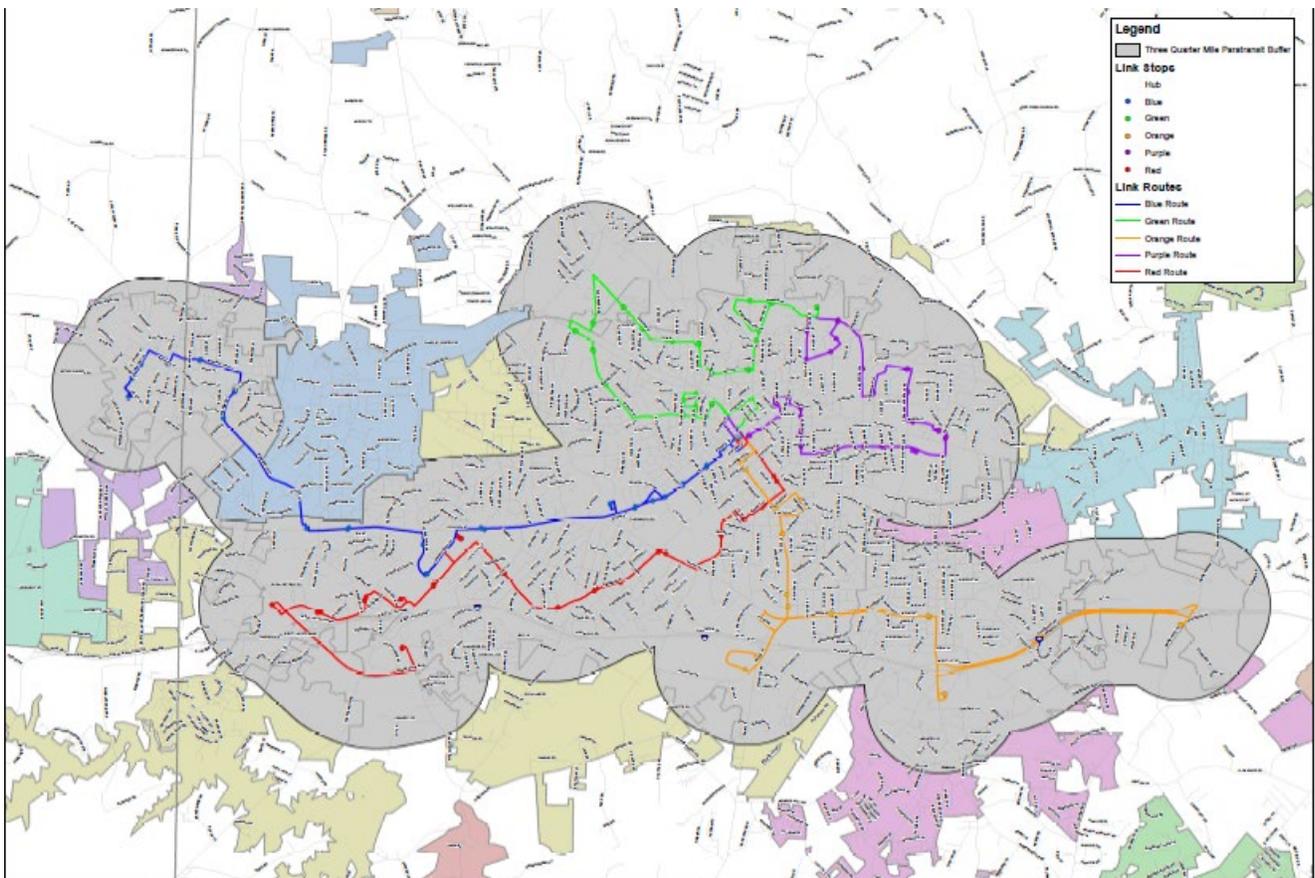

Vital Documents – Forms that include, but are not limited to; applications consent forms, letters containing important information regarding participation in a program, notices pertaining to the reduction, denial, or termination of services, the right to appeal such actions, or that require a response from notices advising LEP persons of the availability of free language assistance, and other outreach materials.

Title VI Compliance Officer – The Link Transit point of contact concerning Title VI related items, who is the Transit Manager.

Substantial number of LEP (Safe Harbor Threshold) – 5% or 1,000 people, whichever is smaller, are prospective, potential or actual recipients of service and speak a primary language other than English and have Limited English Proficiency or who cannot read, write or understand the English language at a level that permits them to interact effectively with English-only speaking members of Link Transit staff.

Demography

The City of Burlington on behalf of Link Transit operates transit services within and between the Cities of Burlington and Graham, Towns of Gibsonville and Elon, and portions of Alamance County. The following information is based on 2020 US Census information. See below for the service area including the routes for Link Transit. The overall square miles are 48.75 of the 90.4 square miles in the Burlington-Graham Urbanized Area. The data presented below relates to the Burlington-Graham Urbanized Area as Link Transit services primarily operate within the UZA.

The Link Transit service area (or ride-shed) has a population of 96,968 of the 141,788 individuals based on the U.S. Census Bureau, 2021 American Community Survey.

Racial Breakdown – 22% service area’s population is African American. 56% is White/Caucasian. 14% is Hispanic. The next largest racial group is Two or more Races at 4%.

Spoken Language – The following data includes the Link Transit service area, those persons 5 years of age or older and both Native- and Foreign-born persons (U.S. Census Bureau, 2021 American Community Survey). 84% of the population speaks only English, leaving 16% that can speak a language other than English. 13% of that number is Spanish speakers. Of that population 5.4% indicate that they speak English less than “very well.”

Looking only at all persons who speak English less than “very well”, Spanish speakers make up the largest group at 4.1%

Household Language by Linguistic Isolation – A "limited English-speaking household" is a household in which no household member 14 years old and older (1) speaks only English or (2) speaks a non-English language and speaks English "very well." In other words, all members 14 years old and over have at least some difficulties speaking English. These residents have a particular challenge navigating American transit, and transit systems have a challenge providing a simple, no-hassle rider experience to members of these households.

Additional details on the demographics of the Link Transit service area are shown below at the end of the LEP.

Action Steps

The following pages lists the details of implementing, maintaining, and monitoring Link Transit’s LEP program plan to ensure federal compliance and meaningful service available to all non-English speakers using Link Transit services.

Link Transit will use the USDOT four factor LEP analysis to determine the LEP language groups present in the area and specific language services that are needed. The four factor analysis considers the following: 1) The number or proportion of LEP persons eligible in the Link Transit service area who may be served or likely to encounter a Link Transit program, activity, or service; 2) the frequency with which LEP individuals come in contact with a Link Transit service; 3) the nature and importance of the program, activity or service provided by Link Transit to the LEP population; and 4) the resources available to Link Transit and overall costs to provide LEP assistance. A brief description of these considerations is provided in the following section.

Four Factor Analysis

- 1. The number or proportion of LEP persons eligible in Link Transit service territory who may be served or likely to encounter a Link Transit program, activity, or service.**

Link Transit has examined American Community Survey data table C16001 from US Census to determine the demographic makeup of the community. To get specific data related to prospective, potential, or actual recipient of services from Link Transit who cannot speak, read, write or understand the English language at a level that permits them to interact effectively with agency staff, Link Transit has utilized the geographic area that constitutes its service area and 0.75-mile buffer on all other Link Transit stops. The total area covered is 48.75 square miles with a total population of 96,978.

Based on review of the data and calculating the Safe Harbor Threshold, Link Transit has identified the LEP population languages in the area as Spanish. There are over 1,000 individuals in the Link Transit service area who speak English less than very well and are fluent in Spanish.

2. The frequency with which LEP individuals come in contact with a Link Transit program, activity, or service.

While we understand anecdotally that LEP persons use Link Transit services, the frequency is low. This is based on the low numbers of complaints, requests, and failed communication efforts experienced by the Link Transit staff.

Language Spoken at Home for Those Who Speak English Less Than 'Very Well'.

Language	# Of Individuals

French, Haitian, Cajun	196
German, West Germanic	90

U.S. Census Bureau, 2021 American Community Survey 5-Year Estimates (Table C16001)

Link Transit will assess the frequency at which staff, Link Transit drivers, and customer service employees have or could possibly have contact with LEP persons. This includes documenting phone inquiries and verbally surveying Link Transit drivers. Link Transit had no requests for interpreters, and no requests for translated documents in FFY 2020-2022.

Survey Results – Link Transit completed an Onboard Passenger survey in 2017. 64 persons completed the survey. While Link Transit’s ridership has consistently been predominantly white and black the percentages vary. We could infer a low percentage of LEP persons currently using the system. When compared to the entire service area, ridership does not closely match the demographics of the service area. A demographic survey will be conducted sometime in FY 2023-2024 to obtain additional demographic data.

Due to the low impact from the Hispanic community, this presents a great opportunity for outreach to the LEP population. As our communities grow and interactions with LEP persons increases Link Transit wishes to ensure appropriate measures are taken to communicate effectively with persons needing language assistance.

3. The nature and importance of the program, activity, or service provided by Link Transit to the LEP community.

Link Transit understands that transportation is critically important to the daily lives of our community members. Certain aspects of our services are of critical importance and this plan will be used to meet the needs of the LEP community. Link Transit provides important transportation services to the public throughout its service area. Link Transit connects the major cities and towns of the Burlington-Graham Urbanized Area to quality-of-life opportunities. Link Transit also provides services to connect to Amtrak station in Burlington. Link Transit riders utilize services to commute to work, going to school/universities, occasionally for special events and also in lieu of reliance on a personal automobile.

4. The resources available to Link Transit and costs.

Link Transit has identified in-house staff with language abilities apart from English, and this staff has some availability to assist with requests related to Link Transit services, including transit. This is the case with the City of Burlington and the Link Transit contractor staff. Link Transit has also identified some businesses and technological solutions that provide translation and interpretative services, these services would be utilized on as needed basis. To make public meetings available to LEP persons, volunteer translators are available through University of North Carolina - Greensboro (UNCG). This resource could also be used to provide translation for written materials in Spanish or other languages. Details on this program is here: <https://cnnc.uncg.edu/interpreter-access-project/>

Link Transit website has the capability to translate all the information to multiple languages including Spanish through Google Translate.

Based on the Four Factor Analysis, Link Transit determined to have a Language Assistance Plan for the Spanish Population.

LANGUAGE ASSISTANCE PLAN

Implementation Methods

How to Identify an LEP Person who Needs Language Assistance – These methods may be used to help identify persons who may need language assistance:

1. Communicate and coordinate with the Burlington Graham Metropolitan Planning Organization.
2. Examine records requests for language assistance from past meetings and events to anticipate the possible need for assistance at upcoming meetings.
3. When public meetings are held, have a staff member greet and briefly speak to each attendee. To informally gauge the attendee's ability to speak and understand English, ask a question that requires a full sentence reply.

Language Assistance Measures - Link Transit may implement the following LEP procedures as appropriate:

1. Link Transit has identified in-house staff with other language abilities and this staff has some availability to assist with requests related to Link Transit services, including transit.
2. Public notice, publications, and other material, including webpage content, may be made available in other languages.
3. Utilize translators at select public meetings; and
4. Use a telephone translation service such as Language Line, and web translation applications such as Google Translate.

Training – Link Transit implements training for Link Transit front-line contracted employees on Title VI and LEP considerations through the contractor. These training opportunities occur on planned schedules and include opportunities for virtual training seminars provided from the video session from LEP.gov. Front-line employees or contractors who come in contact with LEP individuals are Bus Operators, Customer Service Representatives and Road Supervisors. LEP training include understanding Title VI responsibilities, what procedures to follow when encountering an LEP person and how to potentially handle a Title VI complaint.

Outreach – Specific outreach efforts will be evaluated on a case-by-case basis. Some or all the following methods may be used:

1. Posters and brochures will be made available through local Universities and Community Colleges, City and Town offices, and other locations.
2. Link Transit website will indicate ways in which LEP persons can access information about our services.
3. The Link Transit Notice of Rights under Title VI to the public is available at the Link Transit office, on buses, online at www.linktransit.org, and within the Ride Guide.
4. If staff knows that they will be presenting a topic that could be of importance to an LEP individual or if staff will be hosting a meeting or a workshop in a geographic location with a known concentration of LEP persons, meeting notices, fliers, advertisements, and agendas will be available in an alternative language, based on known LEP population in the area.

Monitoring, Evaluating and Updating the LEP & LAP Plans

This plan is designed to be flexible and is one that can be easily updated. At a minimum, Link Transit

will follow the Title VI Program update schedule for the LEP plan. Future plan updates will include the most current data available. The results may change based on the timing of the plan update.

Each update will examine all plan components such as:

1. How many LEP persons were encountered?
2. Were their needs met?
3. What is the current LEP population in Link Transit service area?
4. Has there been a change in the types of languages where translation services are needed?
5. Is there still a need for continued language assistance for any previously identified Link Transit programs? Are there other programs that should be included?
6. Have Link Transit's available resources, such as technology, staff, and financial costs changed?
7. Has Link Transit fulfilled the goals of the LEP Plan?
8. Were any complaints received?
